PORT ST. GEORGE GAZETTE

Section C—An Extra Question subject may be offered carrying 100 marks.
The following—

Physical Anthropology
Social Anthropology.
An auxiliary language.

30. The auxiliary language in Section A or Section C will be tested by means of translation from the language. The following languages may be offered—French, German, Italian, Spanish, Portuguese, Dutch, Norwegian, Swedish, Danish, Russian, Latin, Ancient Greek.

No Candidate may offer any language as Physical Anthropology or Social Anthropology twice in the examination.

No Candidate may offer in Sections A and C together two languages of the group Italian, Spanish, Portuguese or two of the group Norwegian, Swedish, Danish.

Only a Candidate who takes two modern languages in Section B may offer Latin or Ancient Greek as an auxiliary language.

Instead of an auxiliary language a candidate whose mother tongue is an Indian language may offer as Subject 1 either Physical Anthropology or Social Anthropology.

31. In subjects 30 to 35 the candidate subject associated with a language may only be taken by candidates who offer the language itself for examination.

32. A Candidate desiring to offer any of the subjects 30 to 42 or subject 47 must produce leave satisfactory to the Government of laboratory training in an institution of university rank. Laboratory (30) Geographer (31), Physical Anthropology (32), and Agriculture (33), either no laboratory will be required. There will be no laboratory test as part of the examination.

When the marks assigned to Candidates in each subject such deficiency will be made as the Government may deem necessary in order to ensure that all subjects are valued for equal knowledge.

33. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

34. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

35. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

36. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

37. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

38. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

39. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

40. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

41. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

42. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

43. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

44. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

45. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

46. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

47. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

48. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

49. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

50. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

51. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

52. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

53. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

54. If a Candidate's handwriting is not easily legible from the total marks otherwise assigned to him, a further deduction will be made.

Section A.

1. *Essay*—The Essay to be written on one of several specified subjects.
2. *English*—A paper of questions to test the understanding of English and the workmanlike use of words. An optional response in the writing of verse will be tolerated.
3. *General topics*—Questions on contemporary subjects, social, economic, and political. A liberal choice of questions will be given. Effective and skilful exposition will be expected.
4. *European events*—In this subject such knowledge will be expected as a candidate will have who has studied modern history intelligently at school and has since then kept his eyes open. A liberal choice of questions will be given. Attention should be paid to order, effective, and exact expression.
5. *Acquaintance language*—Phrases dealing with history and politics may be set, but no technical matter. Verse is not excluded. Fluency and skill in the use of English will be expected.
6. *Final test*—The examination will be in matters of general interest, not in matters of academic interest; it is intended to test the candidate's alertness, intelligence, and intellectual outlook.

Section B.

History, Subject 110.—Candidates should know something of the original authorities of the principles of historical criticism, and of the principles and the facts of geography in relation to history. They must be prepared to draw their own maps.

1. *English History to 1800, and British History 1800-1911.*—The history will be taken as a whole, political events, and constitutions will be considered as naturally affecting each other, as all important in the outcome of the modern life of the nation. Literature will not be expected. Candidates will be expected to know so much of European history as will make the facts and spirit of English history intelligible and will explain those movements at home which had their origin abroad, e.g., the Renaissance, the Reformation, and the movement in this country of the Revolution. In subject 6 the outstanding incidents and movements in the history of Germany will be included.

2. *European History.*—Period I, from 600 to 1000; Period II, from 1000 to 1500.

Although a fixed date is given for the beginning of a period, candidates have in general freedom how far the period is reached. The history of the old world, east of the Far East, will be included in so far as it influences the important stages.

3. *General European.*—The subject will be treated as a whole, and be fairly well acquainted with the facts of the period.

Algebra: Complex numbers; uniformly converging infinite series; the elements of the theory of equations, including the numerical solution of algebraic equations, but not including the formal solution of the cubic and quartic.

Infinitesimal calculus of real variables in partial differentiation and multiple integrals, with applications to geometry. Candidates should be able to deal with the types of differential equations occurring in elementary mechanics.

The proof of Taylor's series will not be required.

No great skill will be expected in solving complicated problems of an elementary nature. The questions will involve the use of mathematical instruments.

19. *Higher Pure Mathematics*.—The geometry of curves and surfaces.

Elementary analysis, including simple functions of a complex variable and contour integration.

Differential equations in one independent variable. Elementary treatment of partial differential equations, with special reference to the differential equations of mathematical physics. Existence theorems are excluded.

Mathematical theory of probability, including theory of series, method of least squares, errors of observation, and correlation.

Calculus of finite differences, including numerical integration and summation and linear difference equations.

A considerable degree of questions will be allowed, so that full marks may be obtained by covering about half the range stated above.

20. *Lower Applied Mathematics*.—Statics, hydrostatics, dynamics, elementary theory of electricity and magnetism, including the relation of currents. Questions will be of an elementary character, but will not be confined to two dimensions; they will involve the use of the calculus. Candidates are free to use differential equations, but a knowledge thereof will not be necessary to answer the questions. Arithmetic will be used in problems which arise naturally and in general principles; arithmetical problems will be avoided. The questions will involve the use of mathematical instruments.

21. *Higher Applied Mathematics*.—Closes to a more advanced stage, including graphical treatment.

Dynamics in the equations of Euler and Lagrange and including the theory of the vibrations of systems and other simple systems.

Hydrodynamics, including the elementary theory of the motion of solids through a liquid, surface waves, and diffusion in gases.

Elasticity, including the elements of the vibrations of rods, plates and beams.

Electricity and magnetism.

Thermodynamics, kinetic theory of gases, radiation.

Questions may involve the use of spherical and axial harmonics. A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

22. *Statistics*.—Geometrical optics will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of practical training in an laboratory.

23. *Statistics*.—1. Elementary theory of statistics, an depending mainly on the theory of probability for supplying a knowledge of the calculus—frequency distributions, averages, probabilities, and simple methods of measuring dispersion; graphic methods; elementary treatment of qualitative data, e.g., in connection of association by comparison of ratios, consistency of data; the practice of the simplest graphic and algebraic methods of interpolation.

2. Practical methods used in the analysis and interpretation of statistics of prices, wages and incomes, trade, transport, professions and occupations, education, etc., the more elementary methods of dealing with population and vital statistics; miscellaneous methods used in handling statistics of experiments or observations.

3. Elements of modern mathematical theory of statistics—frequency curves and the mathematical representation of group frequency; accuracy of sampling as affecting averages, probabilities, the standard deviation; equivalence of observed differences between averages of groups, etc.; the theory of correlation for two variables.

A considerable choice of questions will be given, especially as to paragraph 3, and it will be possible for a candidate without advanced mathematical knowledge to obtain full marks by answering questions under paragraphs 1 and 2.

24. *Surveying*.—*Methods* 30—45.—The standard of the higher division of a science will be that which is required in the main subject for an honours degree at the universities. The standard for the lower division of a science will be that required in a subject subsidiary to the main subject whether required in the final degree examination or at a preceding examination.

A candidate who desires to offer a science must produce evidence satisfactory to the Civil Service Commissioners of laboratory training in that science in an institution of university rank; the length of such training must be at least two academic years for the higher division of a science and one academic year for the lower division.

25. *Lower Biology*.—Vergable Physiology will be included in each division.

26. *Higher Biology*.

27. *Lower Geology*.

28. *Higher Geology*.

Mineralogy will be included in each division.

29. *Engineering*.—Strength of materials; theory of stress

conditions; heat and thermodynamics; steering; draft

elasticity and magnetics.

The subject will be treated in a general manner and the

elementary parts of the subject. The candidate will be expected

methods and to have some skill in mathematical drawing.

Candidates who desire to offer Engineering must

produce evidence that he has undergone a course

of training in a university or in a technical school.

43. *Geography*.—Geography as understood in the sciences, not including topics which concern geography purely with other subjects such as commerce, history, physics, botany, and geology. There will be a practical test which will necessitate a knowledge of cartographical methods and statistics, and the test will involve measurements and be required.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of having for at least one academic year in an institution of university rank.

44. *Physical Anthropology*.—Physical Anthropology, Prehistoric Anthropology and Technology. Candidates will be expected to have such knowledge as may be acquired by laboratory and museum work, consisting mainly in the handling and study of specimens and exhibits. The subject will be treated with special, but not exclusive, reference to people of wide culture, including prehistoric civilisations.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners that he has undergone a course of training in an institution of university rank.

45. *Social Anthropology*.—Candidates will not be expected to have an extensive acquaintance of laboratory and museum work. The subject will be treated with special, but not exclusive, reference to people of wide culture, including prehistoric civilisations.

46. *Agriculture*.—Agricultural Chemistry, Agricultural Botany, and Agricultural Zoology will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners that he has undergone a course of training in an approved institution.

47. *Psychological Psychology*.—A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners that he has undergone a course of laboratory training in an institution of university rank.

48. *16. English Literature*.—*Period I*, from 1485 to 1700; *Period II*, from 1700 to 1850.—Candidates should be prepared to show a good hand knowledge of some of the works of the following authors and of their place in the history of their country:—

PERIOD I.			
Chaucer. Malory.	Spenser. Shakespeare.	Dante. Milton.	Keats.
PERIOD II.			
Dryden. Congreve. Defoe. Swift. Addison. Pope.	Fielding. Johnson. Burns. Goldsmith. Scott.	Scott. Jane Austen. Walter Scott. Coleridge. Shelley.	Keats. Dehous. Coleridge. Tennyson. Browning.

Questions on other writers will not be included, but, as the whole, the questions will be directed to the best-known authors and their best-known works. Candidates should know as much of the history as is necessary to understand the literature in its relation to other activities of the nation.

Questions will not be on the history of the language before Chaucer, nor, in general, on its morphological or phonological changes since his time; the history of word-making, style, and poetry will not be included.

Literature with History and Literature.—Subjects 49-57.—In these the candidate subject acquainted with a language can only be taken by candidates who also offer the other two for examination in the language itself.

History and Literature will, as far as possible, be treated into close relation. In History, candidates will be expected to show a knowledge of the principal authorities. They must also be prepared to answer questions on Historical Geography, and to draw sketch maps. The questions on Literature will require first-hand knowledge of the authors; and the authors dealt with will be those which candidates ought to have read. Passages of Literature may be set for comment as matters of social, political, legal, or other historical importance. Questions on Philology and the other phases of the language may be set, but will not be compulsory. In the questions papers on History and Literature, candidates will not be required to write their answers in the foreign language.

In the examination test, importance is attached to pronunciation. The ability of candidates in foreign languages will be assessed on the basis of pronunciation, and candidates who have modern languages will be expected to have studied themselves in connection with the language or languages taken.

58. *Latin Language*.—Translation, and prose or verse composition. The composition paper will be so arranged that a candidate may choose himself to give composition or to write composition or, if he prefers, may take about prose and verse notes.

59. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be laid on the period 1800 to 1850.

60. *Language*.—As for Latin.

61. *German History and Literature*. In history the main stress will be on the period 1800 to 1850.

62. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

63. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

64. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

65. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

66. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

67. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

68. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

69. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

70. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

71. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

72. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

73. *German Literature*.—German History and Latin Literature. The outline of the history and literature should be known; but the main stress will be on the period 1800 to 1850.

50. *Spanish Civilization.—Spanish History and Literature.* In history the main stress will be laid on the periods from the Union of Castile and Aragon under Ferdinand and Isabella to the liberation of the Netherlands, and again from 1680 to the present day.

Julian Civilization.—Julian History and Literature. In history the main stress will be on the 15th century and the last half of the 16th century, and again on the period from 1780 to the present day. In literature should be known of the earlier period be understood the position of the Pope and the Emperor in Italy, the rise of the drama and the position of Dante in history.

51. *Russian Language.—As for French*

52. *Russian Civilization.—Russian History and Literature.* Something should be known of the history since the accession of Peter the Great, but the main stress will be laid on the period from 1800 to the present day. Only the broadest outlines of the history prior to Peter the Great will be required.

53. *Arabic Language.—Translation, free composition, set composition, memorization.* The examination will be in the modern language.

54. *Arabic Civilization.—Arabic History and Literature.* The main stress is both history and literature will be on the period from the middle of the 16th century A.D. to the middle of the 19th century A.D.

55. *Persian Language.—Translation, free composition, set composition, memorization.* The examination will be in the modern language.

56. *Persian Civilization.—Persian History and Literature.* The main stress is both history and literature will be laid on the period 1600 A.D. to 1800 A.D. Candidates will be expected to have a general knowledge of the history of Persia before 1600 A.D. and from 1800 A.D. to the present time.

The following applies only to candidates for the Indian Civil Service:—

57. *Sanskrit Language.—Translation, prose composition, and questions on Veda and Sanskrit grammar.* Both Veda and classical Sanskrit passages will be set for translation; composition will be required in classical Sanskrit verse.

58. *Sanskrit Civilization.—Sanskrit literature and the history of the civilization and thought of India from the Vedic period to A.D. 1800.*

Write your Name here—

APPLICATION FORM.

FOR THE USE OF THE CANDIDATES APPLICING TO THE COMMISSIONERS OF THE CIVIL SERVICE EXAMINATIONS TO BE HELD AT LONDON IN JUNE AND AUGUST, 1909, FOR APPOINTMENT TO SERVICE OF THE ADMINISTRATION SERVICE, SENIOR:—

HEAD CIVIL SERVICE ADMINISTRATION CLASS.

INDIAN CIVIL SERVICE

COLUMBIA SERVICE MASTERS EXAMINATIONS.

NOTE 1.—Candidates may include any or all of these three Services in their application form prepared, & below, provided they are eligible in all respects under the regulations; but it should be understood that the only exception as far as concerned, in so far as it is required in 1908 is that for the Indian Civil Service, the regulations for which are contained below.

The question of holding an Open Competitive Examination in 1909 for situations in the Junior Grade of the Administration Class in the Indian Civil Service will be considered in due season, and an announcement in the matter can be made, candidates who wish to the Home Civil Service in any application they may make on the form should clearly understand that it may eventually be decided that no advertisement for this Service is required in 1909.

The regulations for the Home and Colonial Services will be ready in April, 1909, and an announcement will be made then (if not before) whether competitions for these Services will be required in 1909.

NOTE 2.—This form is to be filled up and returned to the Secretary (C. Secy.) Civil Service Commission, 6, Portico, Grosvenor, London, W., 1, in time for delivery on or before June 1st, 1909. No application form received after this date will be accepted.

If a candidate who fills up and returns this Application Form does not receive an acknowledgment of it within a reasonable time he should inform the Secretary of the Civil Service Commission.

NOTE 3.—The candidate should be consulting the regulations carefully himself the services for which he makes application, and that he observes all subjects or items. No scrutiny of the information which gives on this form is made by the examination.

NOTE 4.—Should any of the particulars furnished be found to be of the candidate, he will, if appointed, be liable to be employed in any supervisory capacity; but he will forfeit all other any material fee will be similarly provided.

Syllabus

Excluded examinations: claims among services.

Immediately the results of the examinations are known, each successful candidate will be recommended to attend at the Civil Service Commission to be medically examined and to state his choice among the services open to him and among the various Departments, Peninsular or Colonial. That statement of choice is irrevocable.

Excluded of age.

A candidate born in the United Kingdom must send in his birth certificate with his form but need not be prepared to produce it when required.

A European or Anglo-Indian who was born in India must be prepared to produce when required a certificate of baptism from the church in which he was baptized. If this does not also mention the date of birth, it must be accompanied by a statutory declaration by one of the minister's parsons, stating the date and place of birth.

NOTIFICATIONS.

Port St. George, October 28, 1933.

The following notification of the Government of India is republished:—

DEPARTMENT OF INDUSTRIES AND LABOUR.

Cable, the 10th October 1933.

No. 6 (Misc.).—The following draft of an amendment to the Indian Electricity Rules, 1925, which it is proposed to make in pursuance of the powers conferred by section 27 of the Indian Electricity Act, 1910 (IX of 1910), is published, as required by section 26 of the said Act, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 15th January 1934.

Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council.

DRAFT AMENDMENTS.

In rule 22 of the said rules,—

(a) in sub-rule (2) for the words "permanent structure" the words "structure whether permanent or temporary" shall be substituted.

(b) For rule 23 (2) the following sub-rule shall be substituted, namely:—

(2) If, at any time subsequent to the erection of an aerial line, any person proposes to make in or upon any building or structure any permanent or temporary addition or alteration which would render the aerial line unsafe from the building or structure otherwise than by the act of a ladder or other special appliance, he shall give notice in writing of his intention to the licensee or owner, as the case may be, and shall not commence work upon the addition or alteration until the licensee or owner has decided that either during or after the erection of the work all the aerial line to be so assembled. On receipt of such notice, the licensee or owner, as the case may be shall, without undue delay, so alter the aerial line as to ensure that it will not be unsafe, in such a manner as to secure the provisions of sub-rule (3) either during or after the erection of the work, and may recover the reasonable cost of such alteration from the person from whom the notice was received.

Provided that as Electrical Engineer may, if he is satisfied that the aerial line has been so erected as to secure the protection of persons and property from injury or risk of injury, direct the work to be executed prior to, or, in the case of a temporary addition or alteration without the erection of the aerial line.

M. R. KHARVEDAT,

Off. Secy. to Govt., P. W. D. (General, Buildings and Roads).

Port St. George, October 30, 1933.

Act. 1 of 1934 (India) the Government hereby withdraw from the Gazette of India No. 17 of 33. Thiruvallur, Kanchikaran taluk, Thiruvallur district, 14th August 1933 of the Port St. George Gazette, as being required under the Thiruvallur taluk.

LOCAL SELF-GOVERNMENT DEPARTMENT.

APPOINTMENTS.

Fort St. George, November 3, 1922.

No. 395.—Under sections 7 (3) and 11 of the Madras District Municipalities Act, 1919, the Government appoint M.R. By Sathayya Pillai Arampal to be a Councillor of the Cuddalore Municipal Council.

No. 396.—Under sections 7 (3) and 11 of the Madras District Municipalities Act, 1919, the Government appoint M.R. By. Arutunathan Jeyaraja Pillai Arampal to be a Councillor of the Tanjore Municipal Council.

NOTIFICATIONS.

Fort St. George, November 2, 1922 (G.O. No. 1266, F.M.).

No. 397.—In G.O. No. 1258, L. & M., dated 9th November 1921, the Government directed that sites for wells should be approved by the District Medical and Sanitary Officer or one of his assistants of a rank not less than that of an assistant surgeon. As District Health Officers have now been appointed in all the districts except the Nilgiris, and are responsible for public health administration, the duty of approving sites for wells is equal upon all these districts and in future rest with them. The Government Order referred to above is modified accordingly.

Zeit. f. Physik., October 18, 1943 (*G. Z. Phys.*, 1943, *P. 80*).

No. 891.—In O.O. No. 1356-A, P.H., dated 19th October 1921, the Government entrusted a scheme for the co-ordination of public health work in the districts. They pointed out that the employment of a separate staff for dealing with each disease involved a considerable waste of money and suggested the organisation of a district health staff working under a District Health Board to deal with all epidemics.

2. In G.O. No. 165, P.H., dated 1st February 1922, the Government directed the constitution as an experimental measure of statutory district health committees in the five districts of Vinayapattur, Kistna, Tanjore, Trichinopoly and Kurnool and appointed health officers to three districts with a subordinate staff of sanitary inspectors (now styled health inspectors) drawn partly from the old cadre of deputy inspectors of vaccination and partly from the cholera parties. They subsequently ordered that every district board except the Nilgiris should employ a district health officer whose pay rate to be met from a provincial grant and that such district health committees were formed the health staff in districts where there were no such committees would be under the control of presidents of district boards. In G.O. No. 255, P.H., dated 25th March 1922, they have also sanctioned the creation of a provincial cadre of 205 health inspectors for service in the districts in the place of the old cadre of deputy inspectors of vaccination and sanitary inspectors of cholera parties.

* 3. It will be observed that in the Government Order mentioned above the Government did not propose the abolition of the plague staff now maintained. They considered that owing to the nature of the work involved in plague preventive measures, Collectors should continue to be responsible for plague measures. The Medical

and Public Health Betterment Committee have suggested a reorganization of the preventive staff on a slightly different basis, in order to avoid as far as possible the large expenditure amounting to over a lakh of rupees annually in connexion with epidemics of plague. They propose that a health board should be constituted in each district consisting of the Collector, the District Medical Officer, the President, District Board, the presidents of all taluk boards and the chairmen of all the municipalities with the Collector as the Chairman and the District Health Officer as the Secretary, and that the district health staff under the executive control of the Collector should deal with all epidemics including plague. An extract from the report (paragraphs 9, 10, 11 and 12) which contains the reasons justifying this proposal is appended to this order.

4. The question was referred to a joint meeting of the Local and Municipal and Public Health Advisory Committees. Those Committees were of opinion that the President of the District Board should be the Chairman of the Health Board, the Collector and District Medical Officer being members, and that the Collector should continue to be responsible for plague and should have absolute control over the district health staff for work connected with plague epidemics. In other words according to the Advisory Committee, the district health staff should be under the Collector during epidemics of plague and under the President of the District Board at other times.

5. The Government have also consulted certain Collectors on the proposals referred to above. The majority of them are of opinion that it is not advisable to place the health staff under a Board, with the Collector as Chairman mainly on the ground that local bodies are primarily responsible for public health and that friction is likely to arise if responsibility for the combating of all epidemic diseases is transferred to the Collector.

6. The Government have given their careful consideration to the subject, and they have come to the conclusion that a joint health board containing representatives of municipal councils and local boards with the President, District Board, as Chairman is impracticable at present. Nor are they prepared to accept the proposal of the Medical and Public Health Betterment Committee, since it has been endorsed by Collectors as well as by the non-official representatives of local bodies on the Advisory Committee. They have therefore decided that, for the present, the Collector should continue to be responsible for plague measures but should utilize as far as possible the services of the district health staff for work connected with plague epidemics. Presidents of district boards are requested to place whenever possible the services of the health staff at the disposal of the Collector during epidemics of plague or whenever their district is threatened with an epidemic of plague.

APPENDIX.

Extracts from the Report of the Medical and Public Health Betterment Committee.

9. The Government have already recognized the wastage involved in the employment of a different staff for dealing with each disease especially as the periods of maximum incidence of cholera, smallpox, plague or malarial do not often coincide. In their Order No. 837, P.H., dated 10th June 1922, they have already directed the reorganization of the cadre of Deputy Inspectors of Vaccination (to be better designated health inspectors) with the staff of inspectors attached to cholera parties. They have also in their Order No. 1048, L. & M., dated 21st June 1922, directed local bodies to employ a district health officer whose pay is to be met from a provincial grant and have provided each district at the expense of the Government with a staff of district health inspectors which is to consist partly of Deputy Inspectors of Vaccination and partly of sanitary inspectors hitherto attached to cholera parties. We understand that the mere duties of the district health staff as reorganized by the Government in their orders referred to above will be—

- (a) the investigation and control of all outbreaks of communicable diseases in rural areas and the carrying out of measures necessary to suppress epidemics of cholera, smallpox, plague, malaria, etc.;
- (b) the supervision of all vaccination work;
- (c) the supervision and improvement of the registration of vital statistics, which are to be made more detailed and much more accurate than at present;
- (d) the drawing up of plans and estimates for slum sanitary projects and taking steps to remedy defects in refuse disposal, water-supply, etc.;
- (e) propaganda work;
- (f) supervision of sanitary arrangements in connexion with fairs and festivals.

10. Although plague has not been specifically excluded from the duties of the district health staff, we observe that it is not the intention of the Government to relieve Collectors of their responsibility for plague measures and that a provision of nearly a lakh of rupees has been

made by the Government in the budget for 1933-34 for "expenditure in connection with plague". We understood that the Government did not propose to abolish the plague staff now maintained, in view of the nature of the work limited to plague preventive measures. Epidemics of plague require very prompt action and very often the assistance of the revenue authorities and of the police is necessary for enforcing preventive measures, and the Government considered that presidents of district boards who were often very busy professional men and sometimes Members of the Legislative Council might find it difficult to devote the time and attention necessary adequately to deal with such epidemics. We recognize the fact that the difficulties referred to above can be avoided if the Collector is associated with the health work in the district and the preventive staff is recognized as a slightly different body. We desire to point out that even now in public health matters the boards have necessarily to rely very largely on the reports and suggestions of the revenue officers and delay on the part of village officers in reporting epidemics not only of plague but also of cholera and dysentery and other diseases very often makes it impossible for the local board or the district board to adopt any effective preventive measures. Moreover vital statistics upon which the whole policy of the public health administration must be based are recorded by village officers, who are under the control of the Collector. We understood that presidents of boards have sometimes asked for greater control in these matters over revenue subordinates, but we recognize that it is quite impossible to couple with such requests which would involve placing the revenue subordinates under two independent masters. We consider that the solution is the transfer of the executive control of plague measures to the district board presidents apply though perhaps not to the same degree to all preventive measures connected with epidemics and we therefore recommended that the entire district health staff should work under a district health board consisting of the Collector as chairman and the District Medical Officer, the President of the District Board, the presidents of all local boards and the chairman of all municipalities in the district as members. The district health officer should be the secretary of the Health Board and its executive officer, but he should not in any sense be a member of the board. The recommendations may continue to be paid from local funds and to be under the control of local boards, but their work will, as hitherto, be supervised by the district health officer. We may point out that our proposal makes it possible to employ the district health staff in unassigned personnel should ensure the adoption of a uniform policy throughout the district including the municipalities. One of the defects of the scheme suggested by the Government is that although an epidemic may be raging within a municipality and is likely to spread to the surrounding parts of the district, and the municipal authorities may fail to take or be incapable of taking adequate measures to deal with it and the district health staff which is to be under the control of the district board cannot properly be employed there unless the services of certain members of the staff are placed at the disposal of the municipal board. On the other hand, the president of the district board has no jurisdiction over municipal areas. If the district health staff are placed under a board which has the Collector as the chairman and which contains representatives of municipalities, these difficulties will be overcome. We understood that in more than one case, where district health staff have been in existence during the past year, municipalities have not only asked for the use of the district health staff but have also asked to be admitted to the district health scheme.

11. We wish to emphasize that our proposal does not deprive the presidents of district boards of any powers or privileges that they have enjoyed hitherto. In the first place, the Collector and the District Medical Officer will be the only two official members of the board and the representatives of the local boards and municipalities will still be in a position to lay down the policy as regards public health in the district. In the second place, the main work with which the district health staff is to be entrusted has hitherto been done through agents entirely under Government control. The chief work of the district health staff, if recognized as suggested by us will be inspection of vaccination work, epidemics of cholera, plague preventive measures and prophylaxis. Inspection of vaccination work has hitherto been done by deputy inspectors of vaccination (now designated health inspectors), who are all Government servants under the direct control of the Assistant Director of Public Health and the Director of Public Health, though presidents of district boards have been given certain powers as regards transfer of these officers within their districts and positions. Cholera epidemics have in the past been dealt with by the Provincial cholera parties, which also worked directly under the Director of Public Health. The Collector has been responsible for all plague preventive measures and though he has employed the establishment necessary for the purpose partly at the expense of local funds, he has not absolute control over the staff under the Plague Standing Order. Prophylaxis work has hitherto been done by a special staff of health inspectors also under the control of the Director of Public Health. The cost of all this staff will, under our proposals, be met, as hitherto by the Government.

12. We consider that the services of the revenue staff are essential for purposes of public health unless for larger public health staff is to be employed and that the best arrangement in the circumstances is to place the executive control over the public health staff on the hands of the Collector as Chairman of the Public Health Board for his district. We therefore strongly recommend that the scheme outlined above be given effect to not only as a measure of economy but also in the interests of efficiency. Without a reference to the Collectors who employ plague staffs we are not in a position to say what reduction can be made in the budget allotment of the scheme suggested by us a given effect to. But we estimate that the savings will not be less than Rs. 50,000 per annum.

METEOROLOGICAL RESULTS

FROM THE MARCH 2000 OBSERVATION REPORT

[illegible]

The Standard Barometer and Thermometer are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years observations. The distance of the Barometer is twenty-five feet above the level of the sea, and the amount of the zero-point is also taken into the account. The wind, sea and general weather are recorded for the present Civil Day—four milegats in milegats.

Notes on table prices for August 1923.—The average retail prices of food-grains continued to rise in August 1923 owing to the unfavourable season. The price of the rice by 100 lbs. in Guntur, Vengaloor, Chingleput, and South Kanara was due to damage by Chola in July and August. The price of sorghum by 100 lbs. in Guntur and in Chingleput was due to damage by 10 per cent in Guntur and by 10 per cent in Chingleput and by 10 per cent in Vengaloor and by 10 per cent in South Kanara. Prices in Chingleput, South Kanara, and Chingleput were slightly higher.

**ABSTRACT OF SEASON REPORTS FOR THE WEEK ENDING
3rd NOVEMBER 1923.**

GENERAL SUMMARY.

Week ending 3rd November 1923.—Rainfall is weak very heavy in the Coimbatore and Carnatic; heavy Tenjore; moderate Cuddalore, the Central districts, Madras, Karaikal, and Malabar; fair or light elsewhere. The No. 1 canal commands almost to the Coimbatore except the end of the week. Rainfall is much below average in the Deccan except Cuddalore, Tanjore, and South Kanara. Rainfall exceeds below average outside Malabar and the West Coast. Transplanting of paddy mainly in the Carnatic, the Central districts, and the South; sowing chilies in Coimbatore, Karaikal, Bellary, Nellore, Trichinopoly, and Madras; cotton in Karaikal, Salem, Coimbatore, and Madras, and throughout in the Deccan, Cuddalore, Nellore, and parts of the Central districts. *Severely* outside of dry crops more than average and last year in Karaikal, Bellary, Arcot, and Chittoor and subtropical shrubs especially in Nellore, South Arcot, North Arcot, and Trichinopoly outside to date of wet crops restricted in the Carnatic, North Arcot, and Salem. Standing crops face but dry crops affected in parts of Bellary and Arcot for want of rain and paddy reduced on account of heavy rain and floods in parts of Godevari and Kistna. Harvested first crop paddy in Kistna, Trichinopoly, Nellore, and the West Coast; cotton fair to normal; sorghum and here in parts of the Deccan; rice in parts of Coimbatore, Coimbatore, Chittoor, and Trichinopoly; groundnuts in parts of Coimbatore, Virudhunagar, North Arcot, Salem, and Chittoor, and ladage in parts of Kistna, Nellore, and South Arcot, also. Irrigation water is generally sufficient except in parts in parts of the Deccan, Chittoor, North Arcot, and Salem. Pasture generally well-lodged. Fodder generally available except in parts of Karaikal and Bellary. Prices generally steady but slightly tending to fall. Excess largely noted for standing crops in the Deccan and for first crops in the Central districts.

APPOINTMENT.

Fort St. George, November 1, 1923.

No. 322.—Under section 3 of the Madras Elementary Education Act, 1909, the Government are pleased to appoint Miss Phyllis Smith, Assistant Inspector of Schools, Coimbatore Girls' Range, to be a member of the District Educational Council, the Nilgiris, vice Mrs. G. Sundaram, who has left the station.

NOTIFICATIONS.

Fort St. George, November 1, 1923 (G.O. No. 76, 1912, Vol. (Education)).

No. 321.—The Government are advised that the accumulation of some non-official agency having responsibility of obtaining first-hand knowledge of local conditions and the convenience of individual elementary schools is the responsibility of each school and submitted to, promote the efficiency of each school. The creation of village panchayats under the Madras Village Panchayat Act (Act IV of 1921) has provided an opportunity of connecting local talent and resources with the superintendence of elementary schools. The Government have accordingly passed orders giving power to village panchayats, wherever they are constituted to inspect aided elementary schools in their jurisdiction and report on their condition. They are pleased to give the panchayat more or less the same functions in respect of elementary schools maintained by local funds. The Registrar-General of Village Panchayats is authorized to issue the necessary instructions on the subjects to village panchayats and local bodies.

Fort St. George, November 2, 1923.

No. 323.—Under section 3 of the Madras Elementary Education Act, 1909, M.E.R. Lingula Raju Reddi Gaur has been elected by the Taluk Board, Rayachoti, to be a member of the District Educational Council, Coimbatore, vice M.E.R. K. Srinivasan Rao Gaur, resigned.

(3) Mathematics (separate papers will be set for men and women candidates).	(4) Musician.
	(5) Health-work for women candidates only.
	(6) Physiology and School Hygiene.

3. The date and hour of examination on each subject will be notified later.

4. The examination will be open to all school candidates qualified under the rules. Untrained candidates will not be admitted to the examination, nor will fees paid by them through ignorance of the rules be refunded to them.

5. Candidates for the Elementary grade, who are not Europeans or Europeans, must take up a vernacular as their first language.

6. The fee for the examination is as follows:—

Secondary grade	Rs.
Elementary grade	1

Candidates who appear in one subject only should also reckon the same fee. In the case of those candidates, their register number, the year in which they formerly appeared for the examination and held in the same subject and the centre at which they appeared for the examination, should invariably be given.

7. A list of the students to be presented with the necessary documents recently forwarded to a must be sent by the head of the institution not later than the 15th December 1923, the error being paid, repurchased and returned as follows:—

[*Special roll of candidates for admission to the Training-School Leaving Certificate Examinations, 1924.*]

To the Secretary to the Government Examinations,

Central P.O. (Madras).

Separate forms should be sent for each grade, for each language and for each centre. Lists not correctly and legibly written and not returned within the time limit will be rejected. Heads of institutions should take particular care to see that the names, spelling of names, educational qualifications and periods of training as reported in the lists tally with those given in the various books and school records. They will be held responsible for the correctness of the entries in the lists submitted by them. A supply of nominal roll and inquiry receipt forms and a copy of instructions for preparing the nominal roll will be sent to heads of institutions on their applying to the office managing the examination. The lists should be accompanied by treasury receipts for the fees paid. The fee paid will, under no circumstances, be refunded. Applications not received through the head of an institution will not be considered. Examinations are entered in the notice will be taken of particular required for the nominal roll in the books of institutions in which they were issued, so that they may be returned in the list of students to be prepared by them.

8. Heads of institutions are requested to take particular care to see that each student is eligible to appear for the examination. No candidate shall be considered eligible unless he has put in the required attendance, i.e., 75 per cent of the working days up to the 15th December 1923. Particularly bad cases of absence in attendance will be considered on their merits by the District Superintendent of Schools or Inspector of Schools concerned. Applications for admission should reach the office of the District Superintendent of Schools or Inspector of Schools on or before the 15th November 1923 and in such cases also the examination fee may be paid into the treasury and it will be refunded if possible or not granted to the student to appear for the examination. To prevent a candidate for the examination will be regarded as a deserter, on the part of the school authorities that in these cases the student will by the end of the school year have completed satisfactorily the prescribed course of study.

Secretary: Mr. A. Taylor, Esq., Barrister-at-Law, Finsbury, Lane College, London.

The 100 questions of the Cleveland are—

- (1) To furnish information and advice to Indians who contemplate going to England.
(2) To circulate in India catalogues and other instruments of information, financial and social reform, collected by the Bureau in London.
(3) To communicate with the Council Bureau on behalf of students before they start on a tour of study in England.

Students of the Madras Presidency and of Madras Unions whose colleges are affiliated to the Madras University, who continue their course in England, and the relatives and friends of those who are going or are already gone, are invited to accompany with Mr. Arthur Dawson, Secretary to the Madras Council, at the Law College, Madras, those whom all reasonable information can be obtained.

Letters from Madras students to the Educational Adviser in London or to other Educational authorities in Great Britain are forwarded to the Madras Secretary for General and work being will therefore be saved by direct correspondence with the latter.

There is a library attached to the Forester's office at the Law College consisting of the prospectuses, syllabuses and catalogues of the various educational institutions and universities in India.
